ELOA - UNIQUE LIGHTS

Founded by Simone Lüling

Dipl. Design HGKZ

2015

ELOA was founded in 2015 by the Swiss designer Simone Lüling, who is based in Berlin. Simone Lüling designs and coordinates the objects with the vision of combining simplicity and high-quality artisanship.

ELOA combines the craft of ancient glassblowing with a simple, yet distinct design. In order to achieve the large size of the glass objects and working without forms, it takes a high level of refined craftsmanship and skill performed by only a few master glassblowers.

ELOAS ATELIER AND SHOWROOM

VARIOUS ELOA FORMS

Berlin Oberschöneweide, Reinbeckhallen

2021

Special ambient light shines through the design luminaires at ELOA's studio and showroom in Berlin. The minimalistic interior design of ELOA's studio and showroom contrasts wonderfully with the organically shaped glass lamps.

Apart from the amorphous shapes, the unique colour combinations are characteristic of the design lamps. The iridescent glass creates opalescent colours which attracts extra attention. Muted colours, on the other hand, have a harmonising effect and provide a special ambient light with gentle colour gradients.

PROJECTS

PRIVATE RESIDENCE

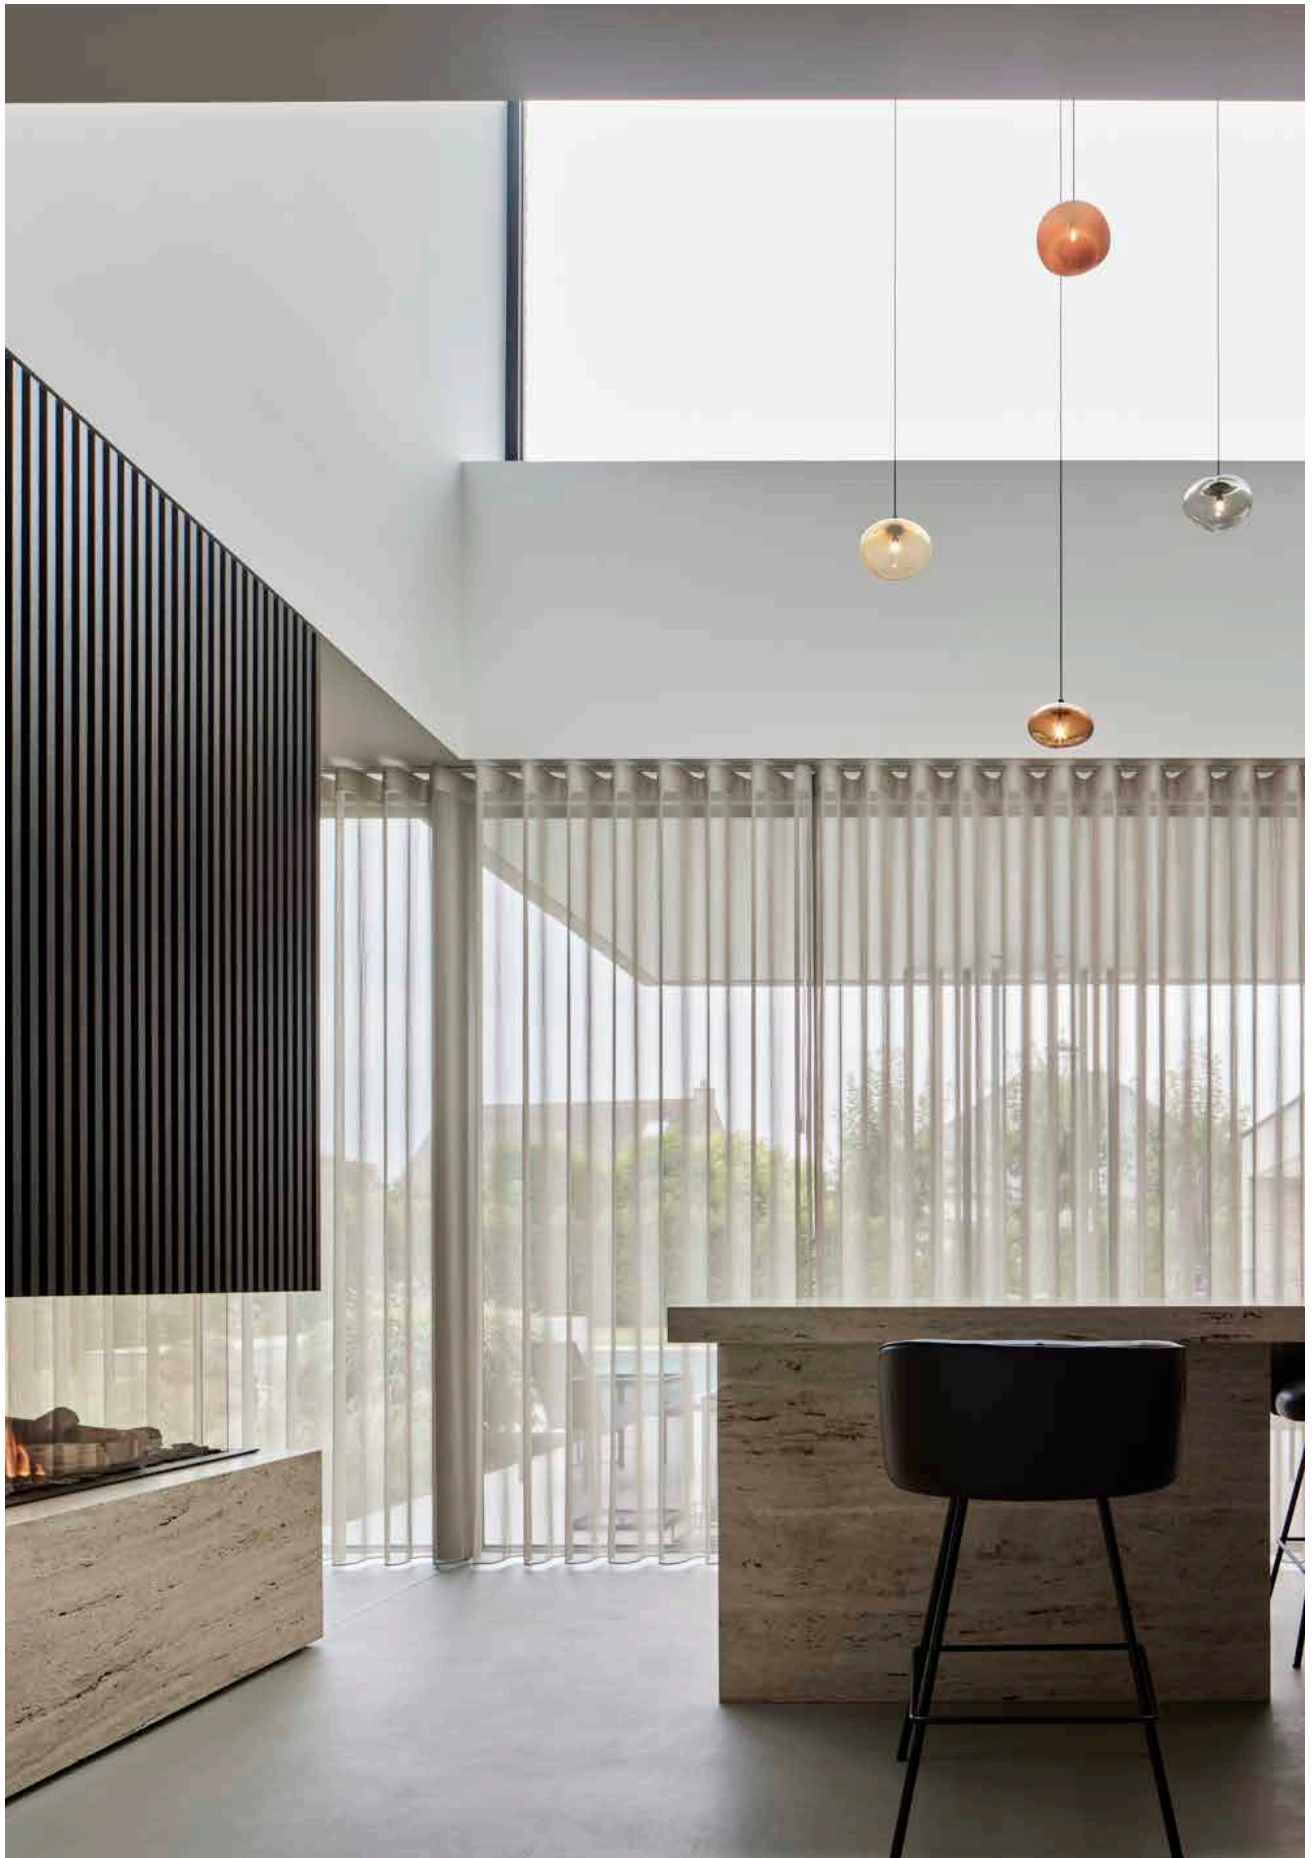

STARGLOW

Project by Studio Segers Architecten

2021

ELOA's smallest luminaire model STARGLOW was used as an installation in the architectural project of a residence in Belgium by Studio Segers Architecten at a room height of 9m. The STARGLOW are shown in the rectilinear interior design concept weightless and punctual and convince with a modern and minimalist look. The amorphous shape of the glass luminaire STARGLOW sensually communicates with the natural materials of the interior.

RADICAL CRAFT

VARIOUS ELOA FORMS

**Museum of Design at Direktorenhaus Berlin
2019**

The exhibition rooms and workshops of the Direktorenhaus form a transit zone for craftsmen, designers and manufacturers. A place where “craftsmanship” is taken to a new level. The Direktorenhaus’s projects oscillate between creative experiments, new materials, social concepts and design art. We are delighted to have been invited - together with over 70 designers - to this museum exhibition which could be viewed on 2 floors until 5 April 2020.

KUNSTHALLE GIESSEN

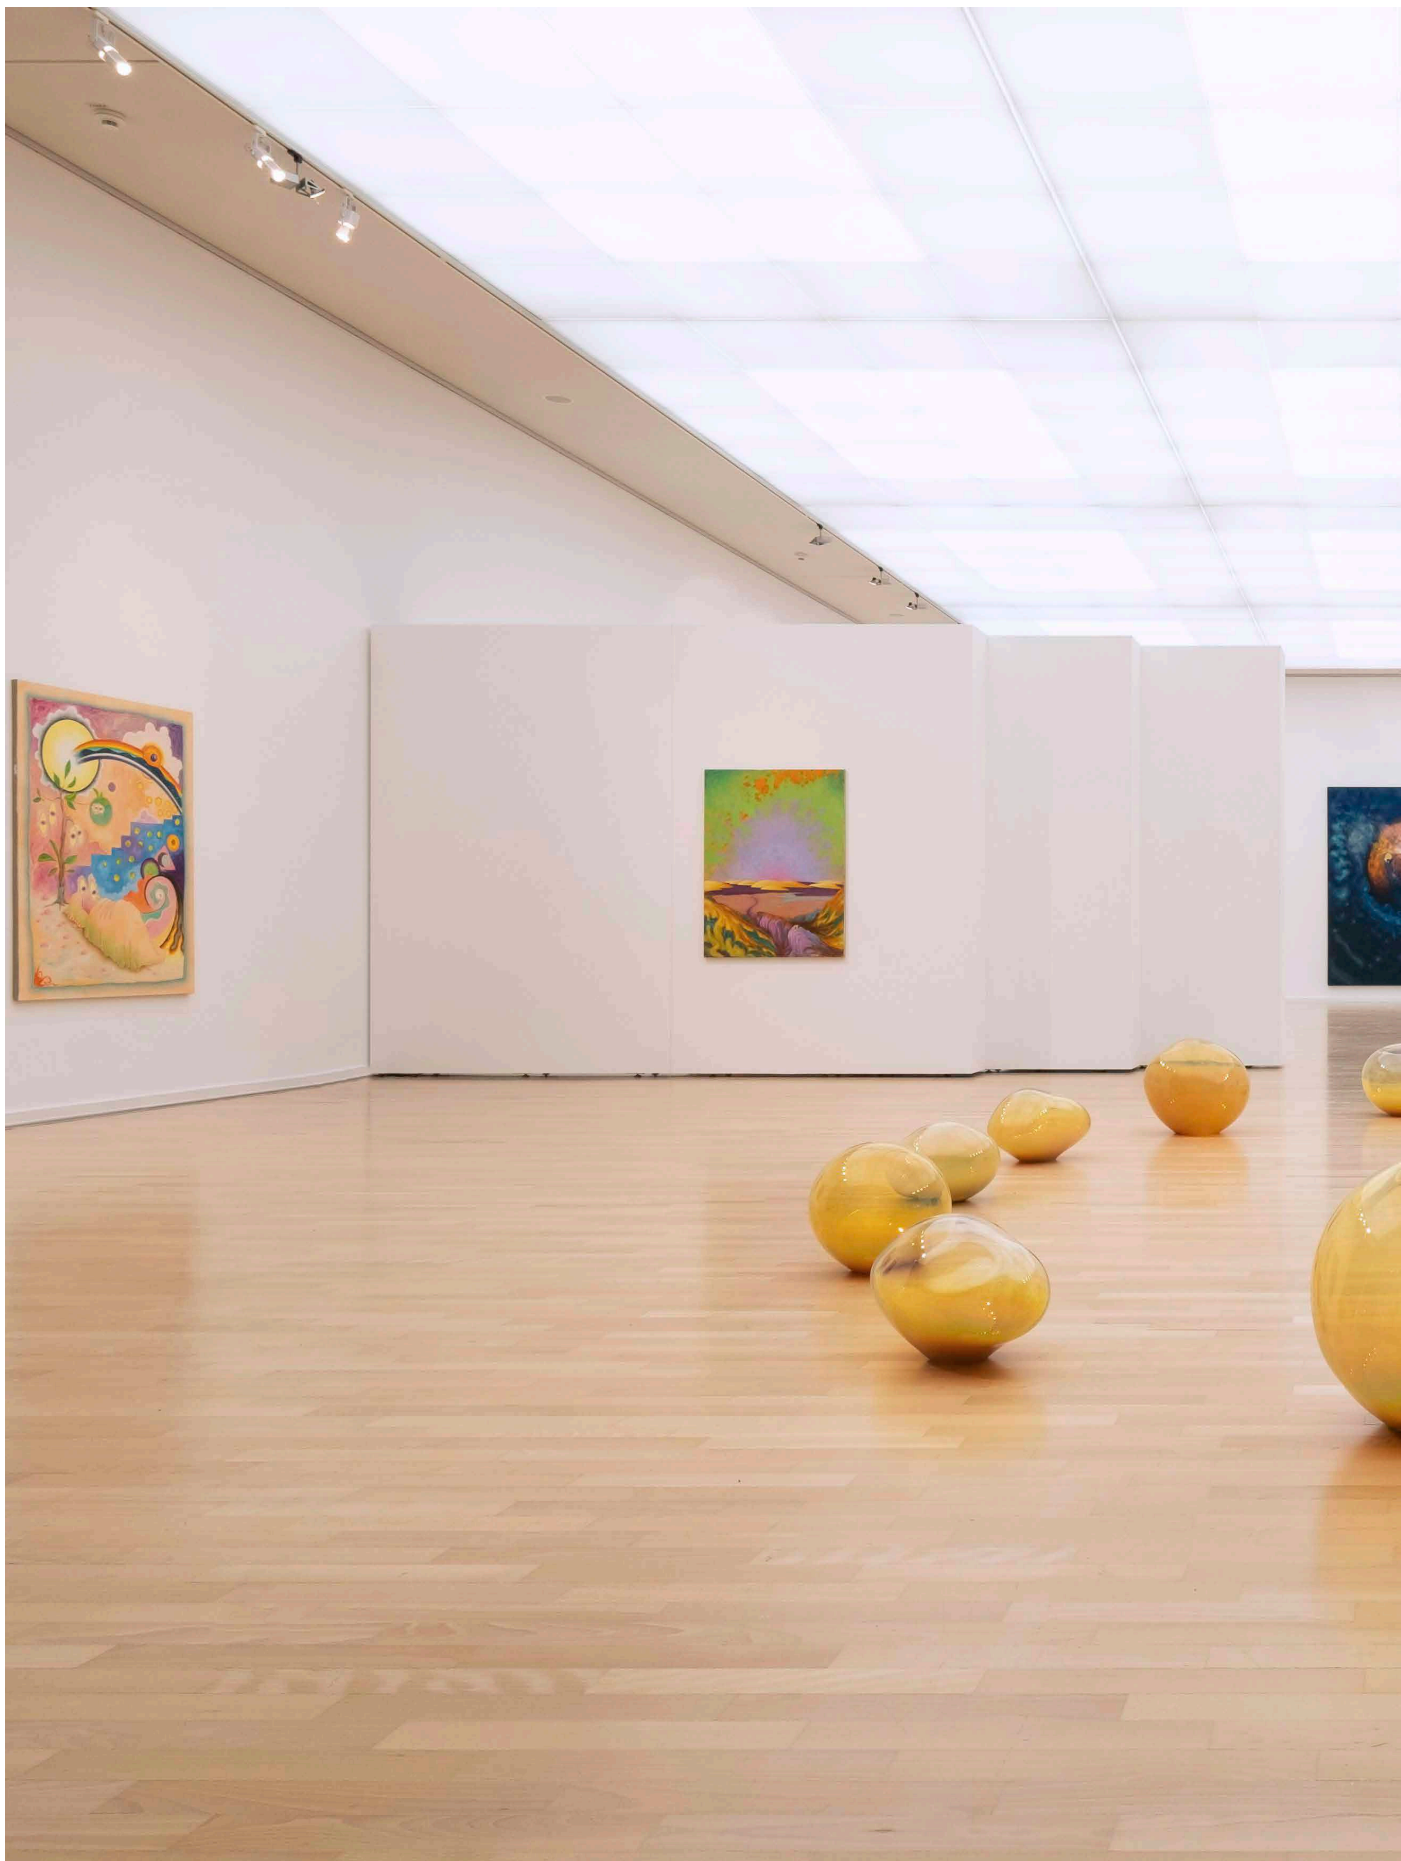

SIRIUS

Exhibition “Always Returning” of Uwe Henneken

2019

‘Always Returning’ was the name of the show from Uwe Henneken at Kunsthalle Gießen. In the entrance area of the exhibition the artist arranged twelve glass objects by ELOA, that are reminiscent of an energetic stone circle and can be described as a place of power.

2020

ELOAs new development STARGLOW was presented for the first time at the imm cologne 2020 on the stand of KETTNAKER with a total of 150 unique glass lights. ELOA combines ancient glassblowing craft with simple and concise design. The glasses are manufactured in traditional glassworks. STARGLOW now combines ELOA's small glass lights into a cloud of sparkling reflections. It appears as a configuration with 3, 6 or 10 lights. Due to its petite size and LED technology, STARGLOW can be used impressively in many areas. Whether in the lounge area or at the dining table.
